

Each floor has a large living room with a two-way fireplace that also warms the sitting room.

Delicious meals are served family style in the bright country style dining rooms.

The sun-rooms provide hours of enjoyment with the outside bird and flower gardens, as well as a delightful room for family visits and get togethers.

The purpose of our program is to create a loving, warm, home like environment where each of our residents are able to continue their life story. It is our desire to empower each person through their passions, desires and strengths. We believe this encourages comfort, dignity, and independence through their individual abilities and personalities. This may be accomplished through maintaining current relationships and groups within the community and participating in normal household tasks, socializing and building friendships, singing, baking, gardening or whatever else supports familiar activities they love. Activities are planned to provide a balance of mental stimulation, physical activity and social opportunities while respecting residents' choice and need for privacy.

Each resident has their choice of a studio suite or one bedroom apartment. Bring home to your room with your own furniture and decorations. Each is equipped with a private bathroom with a handicapped shower, call lights for residents requiring immediate assistance from caring staff, individual heat/AC controls, and cable T.V. hook-ups.

Activities and outings (indoor, outdoor and within the community) will be coordinated according to residents' capabilities and desires.

Serving Our Community Since 1897

**"Our Residents Don't Live in a Facility...
We Work in Their Home"**

Orchard View Terrace

A 40 unit Assisted Living - Community Based Residential Facility that is able to better serve the citizens of St. Croix County. This facility provides services to frail elderly and residents with Alzheimer's disease and related dementias in need of some assistance with daily living skills. It is designed to enhance the quality of life, independence and community integration of our residents.
